

NEW EAERTH VISIONING PROJECT

Week 1 - INTRODUCING OUR AMAZING PROJECT – Janice Coyle

May 4, 2021

**Let's get centered and quiet. Breath in a deep slow breath... an another one... and one more
Fell how yourself in a place where you are totally loved and accepted, a place where
everyone is in joy because You are here. Tune into how that feels, and stay in that feeling for
a little while. I will keep the time.**

WELCOME:

Welcome everyone. Thank you for being with us tonight – the first session of the New Earth Visioning Project. It's great to see you all – fellow travelers in this amazing adventure we are all going through in this time.

I'm Janice Coyle and most of you know me but for those who don't. I've been a mystic all my life having had a profound awakening experience at the age of 9 and many other mystical experiences in my life. I've also been a high school teacher, business woman, editor and writer. For the last 8 or so years I've been facilitating various spiritual study groups and began writing a spiritual memoir which is now about half completed.

SLIDE 1

I have a website JaniceCoyle.org where you will find articles on life and spirituality, videos of my talks on the Watch & Listen page (see the top tabs) If you wish to be included on our announcements of coming meetings and other news, scroll down on this page and on the right column you will see a place to sign up.

So how did this all get started?

One night about 8 moths ago, I woke up suddenly with clear words in my head telling me to write a book about new earth. If you have watched my video Envisioning A New Earth on YouTube, you know this story and what we are about here. For those who haven't seen it, the video is available on the Website's Watch and Listen page, I urge you to watch it.

So to be brief, after I was told to write a book on New Earth, I began looking around, researching and found a lots of people writing about it, others were working to create the new earth in various ways: going back to the earth to nature, new kinder to nature technologies, people working on environment, free energy and so forth.

I began to write about The New earth on my website and continued my research. I found more inspiring groups. I called them Points of Light. In looking over the landscape, I suddenly got the insight that there was a vacuum in all this. Something missing! That was almost like that first voice. I had no idea what that vacuum could be so I continued searching and found many other groups doing great work. Then it came to me, I had not found a group that concentrated on holding the vision for the New Earth and especially, becoming New Earth people. Here was a vacuum that could be filled.

I immediately knew this insight had come from a higher level. I decided to create the New Earth Visioning Project. The name just popped into my head.

As soon as I started to plan and prepare for this Project, synchronicities began to happen and are still happening. Our New Earth Panning team you will meet later seemed to appear out of the ethers as did techie help, great ideas from people, helpful information, and so forth. All these seemed like verification that this was being divinely guided despite serious doubts about my qualifications to lead such an effort as this.

But just a few weeks ago I got another big confirmation when Charles and I attended a speaker event. At the back of the room in the audience was a well-known spiritual teacher, mystic, ET contactee, nature communicator, scientist and author of about 13 books. There she was, Penny Kelly, who I had come to know about only a year ago and since have read most of her books! She is very interested in New Earth, and has written about it extensively and given talks about it. I couldn't believe it! Here she was! I knew I needed to talk to her! I went up to her and we sat down and had a lovely conversation.

So, two days later, I sat down meditated and wrote out our Mission and Goals: They are on the website in the About page and I'll read them

OUR MISSION:

We are a cohesive power for good through envisioning a New Earth and contributing to its manifestation. To achieve this, we are committed to bringing ourselves into strong, invincible, and vibrational alignment with our vision. By becoming New Earth people now in consciousness, thought and actions, we are a power that uplifts the way for many others.

OUR GOALS

1. Establish a strong vision of New Earth and a vision of ourselves as New Earth people.
2. Come into alignment with our vision by becoming New Earth people now.
 - a.) We are healed and have released old belief and emotional patterns from the past.
 - b.) We are connected and in communication with nature and Mother Earth.
 - c.) We have discovered and are using our power and guidance in our lives.
 - d.) We have come to know our unique gifts and are confidently using them.
 - e.) We are connected to the highest within ourselves and know who we are.
3. We are inspired by the many points of light creating New Earth and we join in spirit and support. We know we are points of light ourselves.
4. We are offering our own incredible gifts to help others and nature toward the New Earth we are creating with millions of others around the world. In this we support the members of our group totally and unconditionally.

How will we do this?

First a New Earth Planning Team was established. Our members right now are, Mary Histing, Rebecca Jarmas, Dara Jones, Charles Coyle, and Sam Lee. They have been extremely helpful with their ideas and vision.

At each meeting we will have conversation. We will have a presentation specifically chosen to help advance our vision and goal to become New Earth people.

Each presentation will be recorded and will be available on the website and coming YouTube channel so that if you miss a meeting you can catch up.

We will meditate together, we will do journal writing together. In between meetings we will be doing what we call, soul work – daily practices and contemplation. We will grow together and have fun doing it.

Our meetings and our connection with each other will be New Earth like in the sense that we will look out at each other and see each other as divine spirits.

When we all look out at the world that is now, admittedly we see chaos, separation and fear. But, here we will turn from that to feel and see a new dream, a new vision. For two hours every two weeks or so, we will turn from the troubled world and look at the new being born, within us and without. For two hours this will be our sole focus.

With this world now exhibiting extremes in polarity and polarization, we come here as one regardless of decisions and actions we each must make to cope with this world. For example, I know many of you well and all of you I know, are beautiful people. I love you. Some of you I know voted with determination for one person in the last presidential election and others I love and know here voted for the other person with equal passion. Some of you are happy and relieved that you have received the covid vaccinations, others here are equally happy they have not and will not receive any vaccinations.

But guess what? None of this matters here. We don't care. This is totally irrelevant to our purpose. We are not about the old that is falling; we are about something else. We are not going to talk about or debate current events here. There are many discussion groups out there who talk about these things and that is good and useful. But this is not the place, our purpose here is a whole other thing. We are here to join with and support each other in envisioning a New Earth and becoming New Earth-like. In this we empower each other, here we let go all judgements about each other and let our different coping choices be ok. Soon a new world will come from our new consciousness and all this will be an adventure dream we have left. We are moving forward to another more beautiful adventure. This space is a space of love and acceptance – the New Earth way.

To quote Rumi: *“out beyond all ideas of wrong doing or right doing, there is a field, I will meet you there”*. In this place, for two hours every two weeks or so, we raise ourselves up to this field and meet each in commonality as fellow divine consciousness travelers here.

So speaking of being in the field and meeting each other, let's do this now. Let's go around and say your name, where you are, and one word that has value to you. Everyone think of a word as we will be using it later.

My name is Janice Coyle and my word is **Joy**.

Mary Histing – **Unity**

Dara Jones – **Freedom**

Charles Coyle – **Empathy**

Sam Lee – **Empowerment**
